creating the perfect nursery

Decorating a nursery is a new and exciting design challenge. How do you seamlessly marry your personal style with the practical items every nursery requires? And what, exactly, do you really need? From our exceedingly well-built furniture and classic European bedding to plush playmats and charming decór, our Restoration Hardware Baby & Child collection includes the essentials to create a well-outfitted and welcoming haven for your new arrival.

heirloom-quality furniture

From cribs that convert to toddler and big-kid beds to classics that stand the test of time, the furnishings in our collection are designed to evolve as your children grow. Built of the finest hardwoods, our furniture offers impeccable craftsmanship and enduring value. To ensure your child's safety, our cribs adhere to the most stringent JPMA-certified quality standards.

the crib. The centerpiece of every nursery, our cribs are designed with a platform that easily adjusts to multiple levels based on your baby's age and degree of mobility. To ensure your child's safety, all adhere to the most stringent JPMA-certified quality standards, and meet or exceed U.S. and Canadian Cribs and Cradles regulations. Complete your crib with either a premium foam or luxury coil-style mattress. With our conversion kits, many of our cribs convert to toddler beds for years of use.

the changing table. A well-designed changing table makes diapering and dressing easy and efficient. Ours are designed with multiple drawers or shelves for supplies and a removable topper that allows it to transition into a timeless dresser. Our padded and moisture-proof changing pad pairs with a cover that is soft against your baby's skin, easy to remove and launder and coordinates with our nursery collections.

the glider. A must-have in every nursery, our state-of-the-art swivel gliders provide a comfortable, soothing spot for rocking, feeding and nurturing your baby. Customize your glider with one of our designer-quality upholstery fabrics. A coordinating ottoman provides additional comfort.

the storage. Dressers, armoires and bookcases—the more drawers and storage nooks you have for your baby's supplies, the more organized the nursery. We include tip-resistance kits with all of our tall furniture for added stability and safety.

luxury bedding

Exquisite fabrics, sophisticated color palettes and beautiful detailing set our crib bedding apart. Our classic designs allow you to customize your nursery by pairing coordinating items for a unique look, while personalization options inspire heirloom keepsakes. Why should your baby sleep on anything less than the best?

the crib. All of our ultra-soft cotton Italian and European crib bedding collections include fitted sheets, padded bumpers and skirts. In addition to registering for your crib bedding, we suggest adding a variety of fitted sheets to ensure that you have a change on hand. Be sure to include a waterproof pad to protect your baby's mattress. For safety reasons, remove the bumper from the crib when your baby is big enough to pull up on his feet.

the organic bedding collection. The purest certified organic cotton makes our organic bedding collection beautifully eco-friendly. Select organic jersey sheeting and blankets for your baby's Moses Basket or crib, as well as your toddler's bed. All natural and ultra-soft, organic cotton is the ultimate fabric to rest against your baby's tender skin.

the moses basket. The cozy proportions of our Moses Basket and beautiful coordinating bedding create a sense of security for your newborn during the first few months. Whether used on the floor or positioned on our stand as a bassinet, its portability enables you to keep your baby by your side day and night. A true newborn essential.

the layers. You can never have too many layering options. Our collection includes receiving blankets, quilts, coverlets and blankets that make a design statement when draped over the side of a crib or hung decoratively. For safety reasons, a quilt should not be placed inside your baby's crib.

the well-appointed bath

There's nothing so sweet as a freshly-bathed baby wrapped in a cozy hooded towel. Our charming bath collection celebrates the ritual of bathtime with luxury accessories that make this everyday event anything but routine.

the towels & wraps. Our famously plush Turkish bath towels, hooded towels and coordinating wraps envelop babies in cozy comfort. Register for more than you think you'll need—a true time-saver when it comes to laundry.

the curtains & rugs. Tailored shower curtains prove that even the child's bath can be sophisticated, while our coordinating cotton bath rugs are fluffy treats for tender feet. All our rugs have a non-skid latex backing for your child's safety.

the organic bath collection. Our organic cotton bath collection features premium-quality organic cotton, eco-friendly dyes and superior craftsmanship, earning our products the world's highest organic certification. The collection includes soft and absorbent Turkish towels and hooded towels.

the not-so-basic basics

Our charming layette collection includes all of the basics baby will need to take him or her from morning 'til night. Crafted of the softest cotton, our layette is available in soft colors and sweet prints. Most pieces can be personalized for an extra-special touch.

And most importantly, they're functional, ultra comfortable and just darn cute.

the basics. You can never have too many cotton bodysuits or newborn gowns. We've modernized the layette with well-designed pieces that make dressing and changing easy for mom and baby, with many styles featuring wrap fronts and snap closures. And be sure to think ahead and register for pieces that will take you through the seasons.

the organic layette collection. Outfit your baby from head to toe in beautiful basics. Made of pure 100% organic cotton, our bodysuits, gowns, jackets, pants and one-pieces are oh-so-soft against your baby's tender skin. Complete the collection with essentials including bibs, hats and receiving blankets.

finishing touches

From elegant drapery to our eco-friendly paint, our coordinating accents bring your baby's nursery to life. Once you determine your color palette, consider registering for some of these additional items to tastefully finish the room.

the windows. Our coordinating window coverings bring a polished look to the nursery, but also darken the room during naps and create a sense of privacy. All of our window coverings feature a blackout lining. Select from a range of fabrics, layering options and classic window hardware to create your ideal look. For safety reasons, your baby's crib should not be placed within arm's reach of any drapery.

the lighting. The lighting in your nursery should be warm and welcoming. Consider registering for a floor lamp and reading light, a nightlight or two for bedroom and bath and a ceiling fixture to create a soft, natural glow. Choose from custom shades in a variety of coordinating colors, shapes and patterns.

the floors. You and your baby will spend countless hours on the nursery floor—playing, crawling, taking first steps. Our plush wool and dhurrie rugs are soft on your baby's skin (not to mention your knees) and durable enough for years of play. And all coordinate beautifully with our nursery collections, making an important design statement in your child's room.

the paint. Our no-VOC (volatile organic compounds) satin interior paints are beautifully eco-friendly. Available in our signature coordinating color palette, they release significantly fewer polluting toxins and are odor-free and mold-resistant—best for your baby and the environment.

the little extras

We offer a variety of unique decorative accessories, toys and storage solutions that coordinate beautifully with the rest of our collection. Consider requesting several of these items to complete the nursery and provide your registry shoppers with some additional gift ideas.

the storage. Trunks, hampers, baskets and decorative boxes—the more options you have for your baby’s play things and supplies, the more organized the nursery.

the walls. Distinctive frames, stretched canvas prints, memory boards and wall letters are wonderful ways to personalize the nursery. Consider requesting several frames in different sizes and shapes for the multitude of photos you’re likely to collect in your baby’s first year.

plush. Crafted from luxurious plush, our collection includes snuggly floor and hand-held animals, as well as stroller and security blankets. Portable play mats and activity mats provide a soft and stimulating place for baby to play, anywhere and anytime. And our plush toddler chairs and floor pillows are oh-so-cozy and welcoming.

custom keepsakes

Much of our collection can be distinctively embellished with your child's initials, name or other special message. We offer multiple font styles in our signature thread colors, so your friends and family can create a unique, heirloom piece you'll treasure for years to come.

gift registry perks

We've elevated gift giving to an art, simplifying the process so that it's a joy to give and receive. From our extensive product selection to unique personalization options to our signature gift boxes, we've thought of everything so that you can focus on what's important—welcoming your new arrival to the world.

registry announcement cards. At your request, we will send you complimentary cards to let family and friends know you've chosen Restoration Hardware Baby & Child as your registry—perfect for shower invitations and other correspondence. To order additional cards at no extra charge, contact Customer Service at 800.762.1751. We also offer a complimentary email announcement service for even greater ease.

control of online access. We respect your privacy, and allow you to choose how much online access others have to your registry. Unlimited Online Access allows anyone to view it, while Password-Only Access requires shoppers to have a password that you supply to them. Either way, your personal information is kept confidential.

multiple shipping addresses. You'll have the option to designate two different shipping addresses, one before your event (e.g., a baby shower) and one after the event (e.g., a welcoming party for your new arrival).

thank-you notes manager. In the new-baby flurry, it's easy to lose track of who has (and hasn't) been thanked. Our online tool tracks the name of each gift giver along with the items purchased. You then check off the names as you send your notes.

registry completion discount. Our gift to you: a one-time, post-event 10% completion discount on items that were not purchased from your registry, valid for 12 months after your event. Contact Customer Service at 800.762.1751 for more information.

gift registry tips & tricks

We've collected some practical advice and bits of wisdom from our design team and our real-life experts—new parents like yourselves.

make a list. Preparing your home for a new baby can be exciting yet daunting, especially for first-time parents. For your convenience, we've compiled a Nursery Essentials Checklist featuring key items from our collection, but also suggest that you add to it as inspiration strikes.

pick a time. We suggest setting up your registry at least 3-4 months before your due date. This gives you plenty of time to assess your needs and make necessary adjustments. It's also smart to update your registry before and after showers and prior to the big event.

mix it up. Think big—cribs, gliders, changers—but also think small—bodysuits, blankets, stuffed animals—when creating your list. Budgets vary and people sometimes contribute to group gifts, so it's good to include a mix of price ranges.

plan ahead. When choosing items for your registry, think beyond the newborn stage. Babies grow quickly, so add items that will see you through the first 24 months.

get inspired. Before you register, take some time to browse our site, read our catalog and get inspired by our collections. You can always place items on your list and remove them later if your needs or wants change. In other words, enjoy yourself!

seek guidance. Ask friends and family for advice. Buy all the new parent books. And contact Customer Service—our team of experts is more than happy to help you plan your dream nursery, child's bedroom or other exciting event.

all the best

We look forward to working with you to create a beautiful and welcoming space for your new arrival. You can expect the highest level of customer service and ease of shopping for you, your friends and family.

Create your Baby & Child registry at rhhbabyandchild.com. For assistance, contact Customer Service at 800.762.1751 or email us at bcregistry@restorationhardware.com.

We wish you great joy during this exciting time in your life!
