WARNING: Read all instructions before assembling this product. KEEP INSTRUCTIONS FOR FUTURE USE

CUSTOMER SERVICE

If you are missing parts or have any questions about this product, contact us first. You can also order parts by writing to the address above .Include the product model number, color, and a brief description of the part. Call 1-800-762-1751.

CARE AND CLEANING

DO NOT scratch or chip the finish. DO NOT use abrasive chemicals for cleaning. Clean with mild soap on soft rag. Rinse and dry thoroughly. If the bunk bed is to be stored, store in a cool dry place and carefully package all original hardware to protect from loss.

TOOLS AND INSTALLATION

Tools Necessary: Allen Wrench (included).

Phillips screw driver (not included).

NOTE: When inserting bolts, turn clockwise until tight. Then loosen 1/2-3/4 of a turn. After crib is completely assembled, return to each bolt and tighten.

IMPORTANT SAFETY INFORMATION FOR BUNK BED

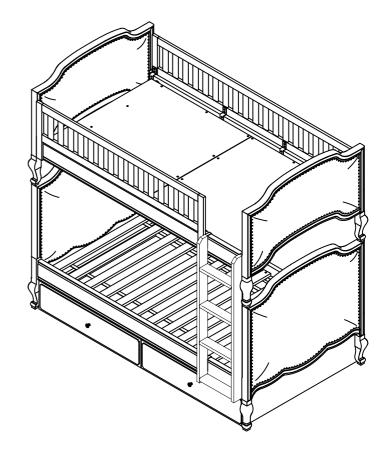

- 1. Follow the information on the WARNINGS appearing on the upper bunk end structure and on the carton.
- 2. Always use the specified size mattress or mattress support, or both to help prevent the likelihood of entrapment or falls.
- 3. Surface of mattress must be at least 5 inches below the upper edge of guardrails on top bunk.
- 4. Do not allow children under 6 years of age to use the upper bunk.
- 5. Prohibit more than one person on upper bunk.
- 6. Periodically check and ensure that the guardrails, ladder, and other components are in their proper position, free from damage, and that all connectors are tight.
- 7. Do not allow horseplay on or under the bed and prohibit jumping on the bed.
- 8. Always use the ladder for entering and leaving the upper bunk.
- 9. Do not use substitute parts. Contact Restoration Hardware for replacement parts.
- 10. Use of a night light may provide added safety precaution for a child using the upper bunk.
- 11. Use guardrails on both sides of the upper bunk.
- 12. If the bunk bed will be placed next to a wall, the guardrail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and the wall.
- 13. The use of water flotation mattress is prohibited.
- 14. STRANGULATION HAZARD Never attach or hang items to any part of the bunk bed that are not designed for use with the bed: for example, but not limited to, hooks, belts, and jump ropes
- 15. Keep these instructions for future reference.

<u>/ </u> W A R N I N G

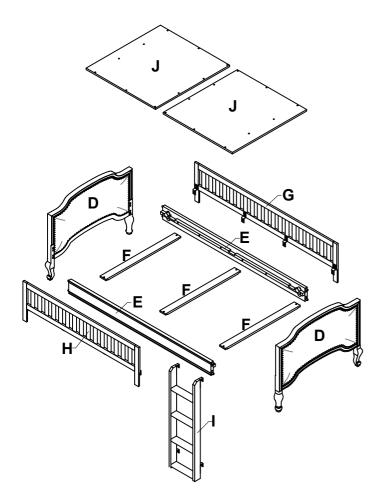

To help prevent serious or fatal injuries from entrapment of falls:

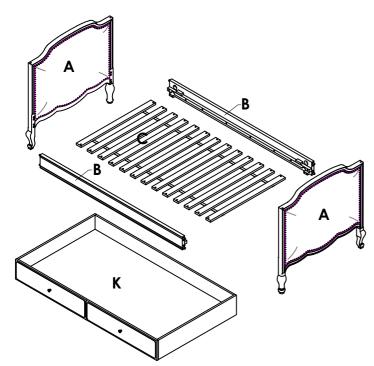

- Never allow a child under 6 years on upper bunk.
- Use only mattress which is 74"-75" long and 371/2"-381/2" wide on upper bunk.
- Ensure thickness of mattress and foundation combined does not exceed 9.5" and mattress is at least 5" below upper edge of guardrails.
- Use guardrails on both sides of upper bunk.
- Prohibit horseplay on or under bed(s).
- Prohibit more than one person on upper bunk.
- Use ladder for entering and leaving upper bunk.
- STRANGULATION HAZARD Never attach or hang items to any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, hooks, bells, and jump ropes.

COMPONENT IDENTIFICATIONS AND HARDWARE

	QTY	
А	LOWER END PANELS	2 PCS
В	LOWER SIDE RAIL	2 PCS
С	SLAT ROLL	1 SET
D	UPPER END PANELS	2 PCS
Е	UPPER END RAILS	2 PCS
F	SLAT SUPPORT	3 PCS
G	GUARD RAIL (BACK)	2 PCS
н	GUARD RAIL (FRONT)	1 PC
I	LADDER	1 PC
J	TWIN PANEL	1 PC
К	TRUNDLE (SOLD SEPARATELY)	1 PC

NO.	ITEM	DESCRIPTION	QTY.
1		Threaded Rod	16 pcs.
2	Ø	Curved Washer	16 pcs.
3	C	Lock Washer	16 pcs.
4		Hex Nut	16 pcs.
5		Phillips Wood Screw 25mm	26 pcs.
6		Phillips Wood Screw 30mm	26 pcs.
7	Junnum-	Phillips Wood Screw 20mm	28 pcs.
8	00	Metal Bracket	4 pcs.
9		Steel Dowel	4 pcs.
10	S	Wrench	1 pc.
11		Wooden Cap	4 pcs.

ASSEMBLY INSTRUCTIONS:

- STEP #1. LOWER BUNK BED ASSEMBLY. STEP #2. INSTALLATION OF LOWER BUNK BED SLAT ROLL. STEP #3. UPPER BUNK BED ASSEMBLY. STEP #4. SLAT SUPPORT INSTALLATION TO UPPER SIDE RAILS. STEP #5. ATTACH TWIN PANELS TO SLATS SUPPORT AND SIDE RAILS . STEP #6. INSTALLATION OF FRONT AND BACK GUARD RAILS TO UPPER BUNK BED. STEP #7. BUNK BED ASSEMBLY. STEP #8. LADDER ASSEMBLY.
- STEP #9. METAL BRACKET INSTALLATION AND OPTIONAL TRUNDLE.

STEP #10. TWIN BED ASSEMBLY.

IMPORTANT

These bed parts can be cumbersome and heavy to some people, therefore the assistance of two or more people is recommended in order to prevent personal injury and ensure the bed parts are not damaged during the assembly process.

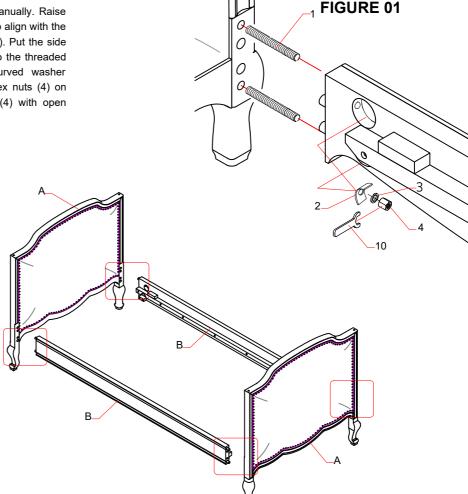

STEP #1. LOWER BUNK BED ASSEMBLY

STEP #1.1

Place the lower end panels (A, taller set) upright in the position you wish the bed to be in when fully assembled. The lower end panel's hardware should be facing inwards. Secure the threaded rod (1) to the fixed nut on both end panels (A) by simply turning manually. Raise the side rail (B) up and place the rod (1) to align with the bore holes on the end of the side rails (B). Put the side rails (B) up against the end panels (A) so the threaded rods go through the bore holes. Insert curved washer (2) and lock washer (3), then engage hex nuts (4) on threaded rod (1) and tighten hex nuts (4) with open wrench (10), as illustrated in FIGURE 01.

STEP #1.2

Repeat the above procedure with the other side rail (B).

STEP #2. INSTALLATION OF LOWER BUNK

BED SLAT ROLL

STEP #2.1

On the ends of the slat roll (C) are pre-bored screw holes (5). Set the slat roll into the cleats of the side rails (B) and secure the slats roll (C) with Phillips screws (5) provided. Please see FIGURE 02.

FIGURE 02

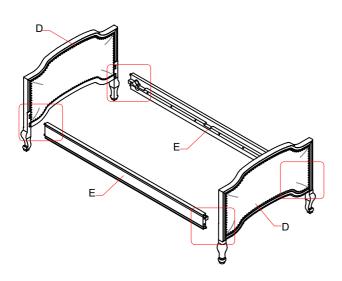

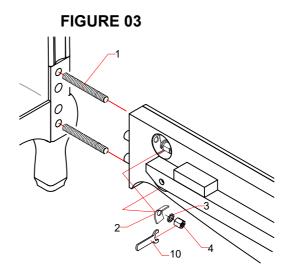

STEP #3.1

Place the upper bunk end panels (D, shorter set) in upright position. The upper end panel hardware should be facing inwards Secure the threaded rod (1) to the fixed nut in both end panels (D) by simply turning it manually. Raise the side rail (E) up and place the rod (1) to align with the bore holes on the end of the side rails (E). Put the side rails (E) up against the end panels (D) so the threaded rods go through the bore holes. Insert curved washer (2) and lock washer (3), then engage hex nuts (4) on threaded rod (1) and tighten hex nuts (4) with open wrench (10), as illustrated in FIGURE 03.

STEP #3.2

Repeat the above procedure with the other side rail (E).

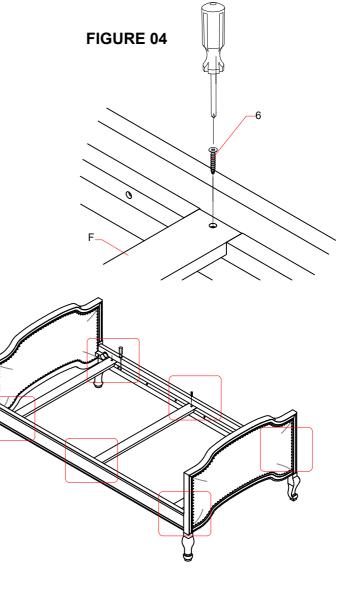

STEP #4. SLAT SUPPORT INSTALLATION TO UPPER SIDE RAILS

STEP #4.1

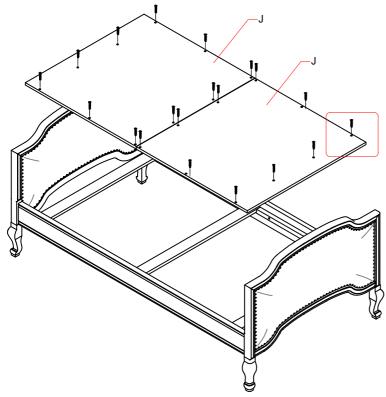

On inside surface of the side rails (E) are cavities designed to hold the slat supports (F). Attach the slat supports (F) to both side rails (E) and secure with screws (6) provided. Please see FIGURE 04.

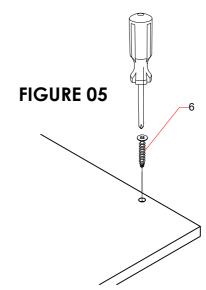

STEP #5. ATTACH TWIN PANELS TO SLAT SUPPORTS AND SIDE RAILS

STEP #5.1

Lay the two twin panels (J) on top of assembled upper bunk bed and secure these with screws (6) provided as in FIGURE 05.

STEP# 6. INSTALLATION OF FRONT AND BACK GUARD RAILS TO UPPER BUNK BED.

STEP #6.1

On inside surface of both front and back guard rail (G, H) are pre-installed metal brackets, designed to attached to the side rails (E) of the upper bunk. Install the front and the back guard rail (G, H) on the upper bank by screwing (7) the metal brackets into the side rails (E) (refer FIGURE 06-A).

NOTE:

The front guard can be installed at either end of the bed that you desire depending on your desired ladder location. Please see ladder options in FIGURE 06-B.

FIGURE 06-A

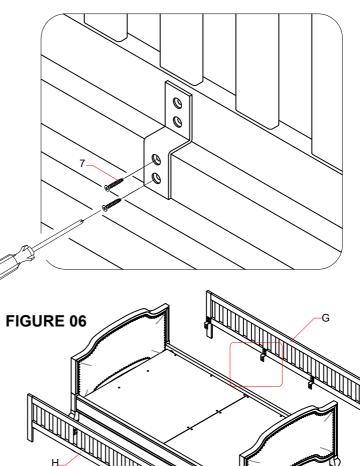

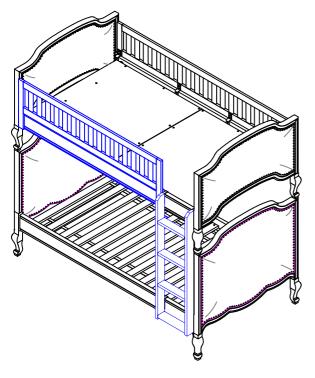

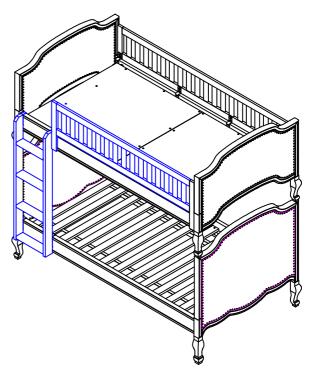

FIGURE 06-B

OPTION 2

STEP #7. BUNK BED ASSEMBLY

STEP #7.1

On top surface of lower end panels (A) are holes for steel dowels (9) that correspond to the holes in the leg of the upper bed (D). Insert steel dowels (9) on top of lower end panels (A) as in FIGURE 07-A.

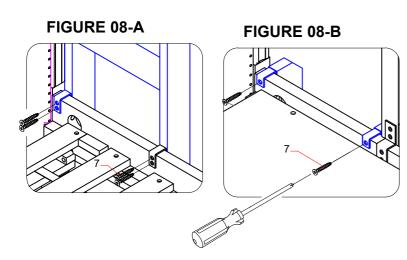

STEP #7.2

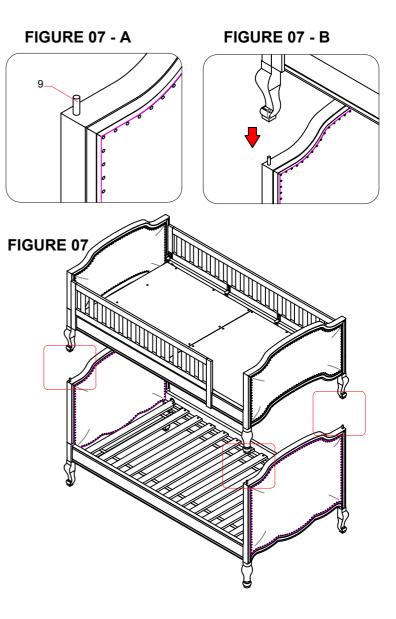

Gently lift up the upper bunk then align and insert the steel dowels (9) into the holes in the bottom of the legs of upper bunk. Refer to FIGURE 07-B.

STEP #8. LADDER ASSEMBLY

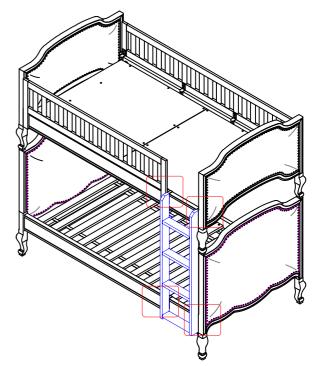

STEP #8.1

On inside surface of the ladder (I) are metal brackets pre-installed with holes for the screws (7) to pass through. Hook the metal brackets of the ladder into the upper side rail (E) as well as the brackets on lower side rail (B); once the ladder (I) is set, fasten the ladder (I) with screws (7) provided as in FIGURE 08-A and FIGURE 08-B.

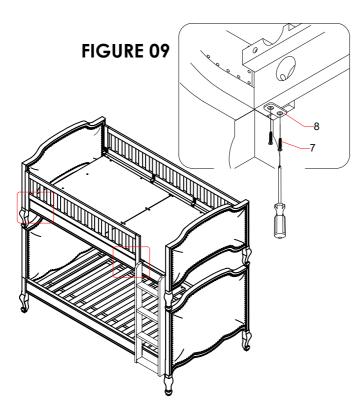

STEP # 9. METAL BRACKET INSTALLATION

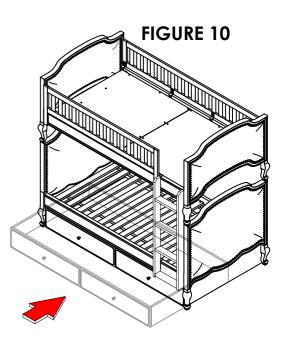

STEP # 9.1

After assembling the bunk bed, secure Guard Rails (H & I) to upper side rails (E) with metal plates (8) provided as in FIGURE 9.

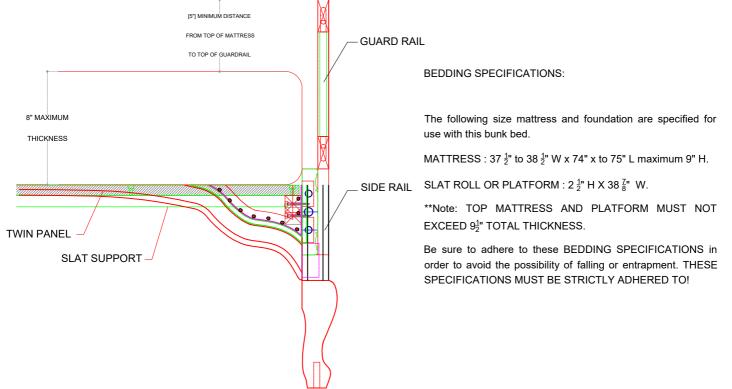

STEP # 9.2

After assembly slide the optional trundle(sold separately) (K) underneath the bunk bed as in **FIGURE 10.**

UPPER BUNK MATTRESS DIAGRAM

STEP #10. TWIN BED ASSEMBLY - TO ASSEMBLE BUNK AS TWO TWIN BEDS

STEP #10.1

Repeat step #1 to step #5, lower bunk bed assembly and upper bunk bed assembly.

Note: in order to set up as two identical twin beds, one Lower End Panel (A) may be removed and exchanged with one Upper End Panel (D), so each bed has a headboard (Lower End Panel-A) and foot board (Upper End Panel-D). Please refer FIGURE 12.

STEP #10.2

Insert wooden caps on top of lower end panels (A) as in figure 11.
