ASSEMBLY INSTRUCTIONS:

Note: Kenwood Universal Guard Rail can be assembled by one person rather easily, but if two people are available it is a bit easier and the operation will require less preparation. The instructions are written assuming one person is assembling the Kenwood Universal Guard Rail.

Step 1. Install Guard Rail (B) as indicated below and Section "A". The Guard Rail can be installed in any location of the lower side rail of the Kenwood Bunk or either siderail of the Kenwood Bed (A) that you desire. Attach Guard Rail to be in position and fasten metal Bracket(C) short end two holes with 8x3/4" screws(F) into pre-drill holes in the Guard Rail (B) first, and then fasten the metal Bracket long end two holes with 8x3/4" screws in the slat bearers on the side rails (Refer to Section "A"). The Metal Bracket on the Guard Rails fit into slots in the slat bearers on the side rails(Refer to Section "A") Secure the other end of metal bracket with 8x3/4" screws(F) that are provided.

Step 2. Install the Oval Metal Plate (E) on the bottom of Guard Rail in two locations and use Oval Metal Plate screws #3x5/8" screws (G) to secure Guard Rail and side rail together (Refer to Section "B").

Step 3. DO NOT pre-attach L bracket (D) before consulting with customers. Attach the L bracket (D) onto the inner ends of the Guard Rail (B) to posts of the Lower Bunk or Kenwood Bed (A) by using the #3x5/8" screws (G) that are supplied with the Guard Rail and the screwdriver (Refer to Section "A").

CARE INSTRUCTIONS:

Dust often using a clean, soft ,dry lint-free cloth.

Blot spills immediately,and wipe with a clean,damp,cloth.

We do not recommend the use of chemical cleansers,abrasives,or furniture polish on our lacquered finish
