## *Creating the Perfect Nursery*

Decorating a nursery is a new and exciting design challenge. How do you seamlessly marry your personal style with the practical items every nursery requires? And what, exactly, do you really need? From our exceedingly well-built furniture and classic European bedding to plush, huggable friends and charming décor, our Restoration Hardware Baby & Child collection includes the essentials to create a well-outfitted and welcoming haven for your new arrival.

## *Heirloom-Quality Furniture*

---

*From cribs that convert to toddler and big-kid beds to classics that stand the test of time, the furnishings in our collection are designed to evolve as your children grow. Built of the finest hardwoods and veneers, our furniture offers impeccable craftsmanship and enduring value. To ensure your child's safety, all of our products are rigorously tested, and our cribs meet or exceed the most stringent ASTM safety standards.*

---

### *the crib*

The centerpiece of every nursery, our cribs are designed with a platform that easily adjusts to multiple levels based on your baby's age and degree of mobility. To ensure your child's safety, all cribs adhere to the most stringent ASTM and CPSC safety standards, and meet or exceed US and Canadian Cribs and Cradles regulations. Complete your crib with either a premium coil-style or luxury pocketed coil mattress. With our conversion kits, many of our cribs convert to toddler beds for years of use.

### *the changing table*

A well-designed changing table makes diapering and dressing easy and efficient. Ours are designed with multiple drawers, shelves or pull-out trays for supplies, and most have a removable topper that allows them to transition into a timeless dresser. Our padded and moisture-proof changing pad pairs with a cover that is soft against your baby's skin, easy to remove and launder, and coordinates with our nursery collections.

### *the seating*

A must-have in every nursery, our ultra-comfortable nursery seating provides a soothing spot for rocking, feeding and nurturing your baby. Each piece has a classic, enduring style that can easily transition from nursery to bedroom for years of enjoyment. Customize your glider, rocker or chaise with one of our designer-quality, stain-resistant upholstery fabrics. A coordinating ottoman provides additional comfort.

### *the storage*

Dressers, armoires and bookcases – the more drawers and storage nooks you have for your baby's belongings, the more organized the nursery. We include tip-resistance kits with all of our tall furniture for added stability and safety.

## *Luxury Bedding*

Exquisite fabrics, sophisticated color palettes and beautiful detailing set our crib bedding apart. Our classic designs allow you to customize your nursery by pairing coordinating items for a unique look, while personalization options inspire heirloom keepsakes. Why should your baby sleep on anything less than the best?

### *the bedding*

All of our premium crib bedding collections include fitted sheets, padded bumpers and crib skirts. In addition to registering for your crib bedding, we suggest adding a variety of fitted sheets to ensure that you have a change on hand. Be sure to include a waterproof pad for an added layer of comfort as well as to protect your baby's mattress. For safety reasons, remove the bumper from the crib when your baby can sit up or pull to a standing position.

### *the organic bedding collection*

The purest certified organic linen makes our organic bedding collections beautifully eco-friendly. All of our organic bedding is Oeko-Tex® Certified, your guarantee that every component - from thread to buttons to fabric to dyes - is free from harmful toxins and irritants. Select organic sheeting and blankets for your baby's Moses basket or crib. All natural and ultra-soft, organic linen is the ultimate fabric to rest against your baby's tender skin.

### *the moses basket & bassinet*

The cozy proportions of our Moses basket, bassinet and beautiful coordinating bedding create a sense of security for your newborn during the first few months. Whether used on the floor or positioned on our stand as a bassinet, the Moses basket's portability enables you to keep your baby by your side day and night. Our bassinet's wood base holds the bassinet at a back-friendly height, and a rimmed storage shelf keeps small essentials close at hand.

### *the layers*

You can never have too many layering options. Our collection includes receiving blankets, quilts, coverlets and blankets that are as practical as they are beautiful, whether used as an added layer of warmth or draped over the side of the crib. For safety reasons, quilts, coverlets and blankets should not be placed inside your baby's crib.

## *Newborn Essentials*

---

*From the tiniest tee to the fluffiest towel, everything that touches your newborn's skin should be soft, cozy and extra gentle. Our collection of everyday essentials is anything but basic.*

---

### *the basics*

You can never have too many cotton one-pieces or newborn gowns. We've modernized the layette with well-designed pieces that make dressing and changing easy for mom and baby, with many styles featuring wrap fronts and snap closures. Be sure to think ahead and register for pieces that will take you through the seasons as well as growth spurts. And don't forget to accessorize with coordinating hats, socks, bibs and receiving blankets.

### *the organic layette collection*

Outfit your baby from head to toe in beautiful basics. Made of pure 100% organic cotton jersey, our gowns, dresses and one-pieces are oh-so-soft against your baby's tender skin. Complete the collection with essentials including hats, bibs and swaddle blankets.

### *the towels & wraps*

Our famously plush Turkish bath towels, hooded towels and coordinating bath wraps envelop babies in cozy comfort. Register for more than you think you'll need - a true timesaver when it comes to laundry.

### *the organic bath collection*

Our organic cotton bath collection features premium-quality organic cotton terry with organic linen trim, eco-friendly dyes and superior craftsmanship, earning our products the world's highest organic certification. The collection includes soft and absorbent Turkish towels, hooded towels, bath rugs and shower curtains.

## *Little Extras*

Bring playful personality to your child's space with our carefully curated collection of decorative accessories. Consider requesting several of these items to complete the nursery and provide your registry shoppers with some additional gift ideas.

### *the décor*

Those small, well-placed objects can make a big impact. Opt for sweet touches like one of our imaginative bookends to hold your child's first library or a decorative accent pillow and nightlight to tie your nursery theme together. We also offer an inspired assortment of objets d'art for the perfect finish.

### *the walls*

Elegant mirrors, original art, distinctive frames, stretched canvas prints, memory boards and wall letters are wonderful ways to personalize the nursery. Consider requesting several frames in different sizes and shapes for the multitude of photos you're likely to collect in your baby's first year.

### *the plush collection*

Crafted from luxurious plush, our collection includes snuggly floor and hand-held animals, stroller and security blankets, and sweet animal rockers. Plush toddler chairs and floor pillows are oh-so-cozy and welcoming. Our plush is available in three different variations – plush, shaggy plush and textured plush.

## Storage

Stow away in style with a place for everything. Our storage solutions keep even the tiniest treasures neatly tucked away, organized and at the ready. Find just the right piece to hold everything from toys and trinkets to linens and layettes. Choose from baskets, bins and laundry hampers, with optional personalization available on many items.

### *the shelf storage bins & baskets*

Be sure to stock up on plenty of these handy catchalls to keep the nursery neat and tidy. Our sturdy seagrass and eco-friendly rattan baskets are woven by hand and can be paired with one of our liners. Or, choose one of our printed bins, made from heavyweight canvas with an inner lining and reinforced handles for easy toting.

### *the toy baskets*

Our toy bins come in two options – closed for concealed storage or open for easy access. Use them to corral errant toys, books and more. Choose from handwoven seagrass, eco-friendly handwoven rattan, industrial-inspired steel or wood. Pair with one of our liners in a variety of mix-and-match colors.

### *the laundry baskets*

With plenty of room to store a few loads, our collection of hampers offers a stylish solution for holding laundry. Choose from handwoven seagrass, eco-friendly handwoven rattan or industrial-inspired steel. Pair with one of our liners to prevent snags.

## *Finishing Touches*

---

From elegant drapery to eco-friendly paint, our coordinating accents bring your baby's nursery to life. Once you determine your color palette, consider registering for some of these additional items to tastefully finish the room.

---

### *the windows*

Our coordinating window coverings - drapery and cordless Roman shades - bring a polished look to the nursery, but also darken the room during naps and create a sense of privacy. Most of our window coverings feature a blackout lining. Select from a range of fabrics, layering options and classic window hardware to create your ideal look. For safety reasons, your baby's crib should not be placed within arm's reach of any drapery.

### *the lighting*

The lighting in your nursery should be warm and welcoming. Consider registering for a floor lamp and reading light, a nightlight or two for bedroom and bath, and a ceiling fixture to create a soft, natural glow. Choose from custom shades in a variety of coordinating colors and shapes.

### *the floors*

You and your baby will spend countless hours on the nursery floor - playing, crawling, taking first steps. Our plush wool, dhurrie and chenille rugs are soft on your baby's skin (not to mention your knees) and durable enough for years of play. And all coordinate beautifully with our nursery collections, making an important design statement in your child's room.

### *the paint*

Our no-VOC (volatile organic compounds) satin interior paints are beautifully eco-friendly. Available in our coordinating color palette, they release significantly fewer polluting toxins and are odor-free and mold-resistant - best for your baby and the environment.

## Custom Keepsakes

Much of our collection can be distinctively embellished with your child's initials, name or other special message. We offer multiple font styles in our signature thread colors, so your friends and family can create a unique, heirloom piece you'll treasure for years to come.

## *Gift Registry Perks*

---

We've elevated gift giving to an art, simplifying the process so that it's a joy to give and receive. From our extensive product selection to unique personalization options to our signature gift boxes, we've thought of everything so that you can focus on what's important - welcoming your new arrival to the world.

---

### *registry announcement cards*

At your request, we will send you complimentary cards to let family and friends know you've chosen Restoration Hardware Baby & Child as your registry - perfect for shower invitations and other correspondence. To order additional cards at no extra charge, contact Customer Service at 800.762.1751. We also offer a complimentary email announcement service for even greater ease.

### *control of online access*

We respect your privacy, and allow you to choose how much online access others have to your registry. Unlimited Online Access allows anyone to view it, while Password-Only Access requires shoppers to have a password that you supply to them. Either way, your personal information is kept confidential.

### *multiple shipping addresses*

You'll have the option to designate two different shipping addresses, one before your event (e.g., a baby shower) and one after the event (e.g., a welcoming party for your new arrival).

### *thank-you notes manager*

In the new-baby flurry, it's easy to lose track of who has (and hasn't) been thanked. Our online tool tracks the name of each gift giver along with the items purchased. You then check off the names as you send your notes.

### *registry completion discount*

Our gift to you: a one-time, post-event 10% completion discount on items that were not purchased from your registry, valid for 12 months after your event. Contact Customer Service at 800.762.1751 for more information.

# *Gift Registry Tips & Tricks*

---

*We've collected some practical advice and bits of wisdom from our design team and our real-life experts - new parents like yourselves.*

---

## *make a list*

Preparing your home for a new baby can be exciting yet daunting, especially for first-time parents. For your convenience, we've compiled a Nursery Essentials Checklist featuring key items from our collection, but also suggest that you add to it as inspiration strikes.

## *pick a time*

We suggest setting up your registry at least 3-4 months before your due date. This gives you plenty of time to assess your needs and make necessary adjustments. It's also smart to update your registry before and after showers and prior to the big event.

## *mix it up*

Think big - cribs, gliders, changers - but also think small - one-pieces, blankets, stuffed animals - when creating your list. Budgets vary and people sometimes contribute to group gifts, so it's good to include a mix of price points.

## *plan ahead*

When choosing items for your registry, think beyond the newborn stage. Babies grow quickly, so add items that will see you through the first 24 months.

## *get inspired*

Before you register, take some time to browse our site, read our catalog and get inspired by our collections. You can always place items on your list and remove them later if your needs or wants change. In other words, enjoy yourself!

## *seek guidance*

Ask friends and family for advice. Read all the new parent books. And contact Customer Service - our team of experts is more than happy to help you plan your dream nursery, child's bedroom or other exciting event.
