3. Attach one of the mounting brackets near the top back edge of the furniture piece by inserting the shorter screws.
4. Determine the final position of the furniture piece. Mark location on the wall approximately 2" below the bracket mounted to the back of the furniture.
5. Drill a starter hole into the wall stud. If wall stud is not available, drill a hole into the wall and insert plastic anchor. Gently tap the anchor until the flange of the anchor is flush with the wall.
6. Attach the second bracket by inserting the longer screw through the bracket and into the wall.
7. Place the furniture so the bracket on the back edge is in line with the bracket in the wall.

9. To double lock; return the beaded end back through the keyholes as shown.
10. Check to make sure the Restraint strap is securely laced and locked to the brackets.
11. Insert the Shelf Pins (1) into the holes in the Armoire (A). Then put the adjustable Shelves (B) onto the shelf pins as shown below.
