fabric care

Dust or vacuum regularly to help keep fabric looking new. Avoid direct sunlight and heat to prevent premature fading. Dab spills immediately with soft white cloth dampened with distilled water. Do not use tap water or detergents to clean. Do not wash or dry clean cushion covers separately as it could cause a slight variation in color.

Professional upholstery cleaning is recommended. Slipcovers can be dry cleaned or machine washed in a commercial washer on cold and hung to dry. Stain-resistant finish will wash off after multiple washings.
