features

A fixture in architectural firms and artists' studios, pieces like these are used to store plans, prints and maps in their wide, shallow drawers. We've reconfigured the design for use in the home, with modular flexibility that lets you stack components together for an entry solution. Tough metal brackets and a tip-restraint kit keep vertical arrangements standing tall.

- Aged grey finish
- Expertly crafted of kiln-dried wood
- Finish is distressed to impart a timeworn patina
- Cast-metal bin pulls have an antiqued finish for the look of age
- Given the handmade and hand-finished nature of the wood and metal work, variations are to be expected and celebrated
- English-dovetailed drawers with wood-on-wood glides
- Small cubby ideal for shoes; large cubby ideal for boots, bags or other larger items
- Base features 1 large drawer designed to look like 3 flat-file drawers

care

Wipe with a soft, dry cloth. Avoid direct sunlight and heat to protect the wood finish.
